

Shivani Sanjay Shrungare

Full Stack Web Developer | React | JavaScript | UX/UI Design | Figma shivanishrungare7@gmail.com | +4917685081944 | Heidelberg, Germany linkedin.com/in/shivani-shrungare | github.com/shivanishrungare | Portfolio

Full Stack Web developer with 3+ years of experience building responsive, user-focused web applications using Figma and MERN Stack. Strong foundation in HTML, CSS, and core JavaScript, and browser concepts. Experienced with Git workflows, effective in agile and distributed team environments, with clear communication and problem-solving skills.

WORK EXPERIENCE

April 2025 – Present Remote, Germany Freelance Full Stack Web Developer Community Web Platform

Tasks/Achievements:

- Develop and improve UI features using React, JavaScript, Node.js, and SQL.
- Fix bugs and enhance UI responsiveness across various devices.
- Integrate frontend components with backend APIs built in Node.js.
- Collaborate with Figma designers and contribute new ideas or improvements.
- Currently exploring **Rest APIs** and their integration with React apps.
- Implemented new UI flows, leading to a 30% improvement in user task efficiency and enhanced engagement on the platform.

May 2023 – September 2024

Work Student Frontend Developer

Stuttgart, Germany

TeamViewer GmbH

Tasks/Achievements:

- Built 15+ responsive, reusable UI components using React, TypeScript, HTML, CSS.
- Used Git and Jira in daily development workflows.
- Refactored legacy codebase for improved performance and maintainability.
- Collaborated in agile, distributed teams and participated in sprint planning and code reviews.
- Improved design accuracy and reduced developer handoff issues by 35%.
- Boosted performance by 40% and reduced bugs by 30% through code optimization.

❖ July 2019 – August 2022

Mumbai, India

Frontend Developer with UI Designer Tata Consultancy Services, Ltd

Tata Consultancy Services, Ltd

- Tasks/Achievements:
- Started as an L3 Developer managing production incidents and backend enhancements, then proactively transitioned to the frontend team to address major UI/UX flaws in a high-traffic banking platform.
- Rebuilt and modernized responsive, performance-critical UI components using React, Angular, JavaScript, HTML, and CSS.
- Collaborated with distributed teams to implement user-centered design improvements across legacy interfaces.
- Led frontend integration and validation in cross-functional releases, ensuring 99.9% uptime and deployment stability. Achieved a 30% drop in user complaints, a 25% increase in engagement, and a 40% reduction in UI-related incident tickets through redesign and optimization efforts.

EDUCATION

October 2022 – September 2024 SRH University of Applied Sciences MSc. in Applied Computer Science (1.6 GPA)

Heidelberg, Germany

June 2015 – May 2019 Savitribai Phule Pune University Bachelor in Electronics and Telecommunications
Nashik, India

SOFT SKILLS

Communication, Problem-Solving, Continuous Learning Mindset, Independent, Self-motivated work, Collaboration, Teamwork

TECHNICAL SKILLS

Frontend: React, Angular, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI (Proficient)

Backend & Tools: Git, Bitbucket, GitHub, Jira, Jenkins, Postman, Swagger, Node.js, RestAPI, MongoDB, SQL (Intermediate)

❖ AI & Emerging Tech (Exploring): Prompt engineering basics, Generative AI tools

(Basic)

WI/UI Design: Figma, Wireframes, Prototypes, User research, Responsive design, Usability testing

(Proficient)

PROJECTS

April 2024 - September 2024

Master Thesis Lecture Planning & Management

- Designed and developed a full-stack web role-based scheduling app using MERN Stack
- Reduced conflicts by 80%, and improved scheduling speed by 60%.
- Applied algorithmic problem-solving during development and debugging to improve application speed by 20%
- Skills Used: UX Design, Figma, React, JavaScript, Material UI, RBAC, JWT, Express, Node.js, MongoDB, Git, CI/CD, Rest API

October 2022 – April 2024

Academic frontend and full-stack projects

Travel Agency Website, Mental Health Website, Satellite Trajectories, and more

LEADERSHIP AND AWARDS

❖ National Seminar on Industrial Internet of Things (IIoT)

- Led and hosted a two-day National Seminar with 100+ participants, anchored the event, coordinated logistics, managed speaker sessions, and facilitated audience engagement.
- Oversaw planning and execution to ensure a seamless experience for all participants.

College Technical Events

Organized and managed key technical events during the annual tech fest with 80+ participants, ensuring smooth coordination, high participation, and effective team collaboration.

Poster Presentation Competition

Winner among 200+ participants in handmade poster presentations at national and inter-college events. Also recognized as the best performer in an internal organizational poster competition
